

CREST Topical Lunch

Title: Sustainable Cities Design

Host: Aaron Sachs

Date: Tuesday April 7, 2015 12:15 – 1:15 PM

Location: A.D. White House

Abstract:

Cities have a great capacity for carbon efficiency and social services, but they also concentrate pollution, and their consumption levels require the transport of goods from thousands of miles away. They may also exacerbate certain kinds of social divisions and injustices. Is it possible to design sustainable cities in the 21st century?
