

**Atkinson Center  
for a Sustainable Future**

## **Atkinson Center Iscol/Oceana Internship Program**

### **Seeking Graduate Students and Qualified Undergrads for Summer 2016**

This is an exciting opportunity for young scholars to contribute to finding solutions to today's urgent environmental challenges, while working with researchers at Oceana, an international organization focused solely on oceans, dedicated to achieving measurable change by conducting specific, science-based campaigns with fixed deadlines and articulated goals.

These paid fellowships/internships will begin in summer 2016 with Oceana in Juneau, Alaska, and Monterey, California.

**Application Deadline:** April 21

**Decisions:** Late April

Please review the full description of the individual internship by following the links below.

- Submit applications by email to Paula Euvrard, [pge3@cornell.edu](mailto:pge3@cornell.edu).
- Attach your application as a single PDF file.
- Application must include a **cover letter** addressed to Oceana with a brief explanation of your qualifications and interest, followed by your **CV or resume**.
- Optional: you may include a brief writing sample.
- You must attach a separate PDF file for each internship, if applying for more than one.

The Atkinson Center will review the applications and forward top candidates to Oceana.

### **Atkinson Iscol/Oceana Summer Interns**
